AR-CL-L / DEVELOPMENT SPECIFICATION BRIEF

Curler *Lite.*

One less thing to pack. One more thoughtful touch.

An essential curling-tool direction for a carefully managed guest lending service. Start with the moments that matter: dinner, celebrations and the confidence of feeling like yourself away from home.

Not every room needs another heated appliance. Sometimes the thoughtful answer is to make one available when a guest asks. Curler Lite is conceived for that service moment, with a product and operational brief that puts safe handling, storage and clear instructions first.

01

An on-request amenity concept rather than unnecessary room clutter

02

A proposed heat-rest and storage workflow

03

A practical way to evaluate guest demand before a wider rollout

Current status

Design concept in development. Not a final specification, performance claim, certificate or offer of available stock. The exact product must be qualified before purchase.

THE DETAILS / AR-CL-L

The specification *starts here.*

Defined = collection identity. Proposed = design direction. Unverified = evidence required before commercial release.

DETAIL	CURRENT BRIEF	STATUS
Collection reference	AR-CL-L	DEFINED
Category	Heated curling tool for a managed amenity program	DEFINED
Finish direction	Pearl / soft-matte handle	PROPOSED
Barrel size and coating	Final production configuration is not yet selected	UNVERIFIED
Temperature and controls	Range, accuracy and controls require independent verification	UNVERIFIED
Automatic shutoff and heat rest	Safety features must be evidenced on the exact approved model	UNVERIFIED
Voltage, plug and cord	Destination-specific electrical compatibility required	UNVERIFIED
Lending kit and cleaning	Contents, cooling time and approved cleaning procedure to be confirmed	UNVERIFIED

> **Placement and service**
>
> Introduce only after engineering approval, written safety instructions and a documented lend-return-inspect routine.

Imagined for: Managed guest lending, event preparation and controlled amenity programs
